Education

Madhav Institute of Technology and Science, Gwalior, M.P.

Nov. 2022 – May 2026

Bachelor of Technology in Computer Science

CGPA: 7.60

ST. Paul's Convent School, Ujjain, M.P.

Apr. 2019 – May 2021

Intermediate

Percentage: 93%

Relevant Coursework

- Data Structures
- Object Oriented Design
- Operating System
- Database Management
- Computer Network
- TCP/UDP
- DAA
- JAVA

Experience

Codec Technologies, Remote

May 2025 – July 2025

MERN Stack Intern

- Contributed to the design and development of scalable web applications utilizing the MERN stack, optimizing front-end and back-end processes.
- Partnered with team members to develop and integrate RESTful APIs, enhancing application data flow and functionality.
- Performed thorough testing and debugging to maintain application integrity and user satisfaction prior to launch.

Projects

KaamWala.in – Daily Wage Worker Booking Platform | *React.js, Node.js/Express, MongoDB*

[Git Repository](#)

- Engineered a location-based MERN stack application connecting users with local service providers, featuring bilingual support (English + Hindi) to increase accessibility.
- Integrated MongoDB with geospatial queries to match users with nearby service providers.
- Implemented real-time booking, profile management, and calling features for seamless service coordination.

Hydra-IdMorpher | *React.js, Node.js/Express, MongoDB, Rest API*

[Git Repository](#)

- Developed a full-stack CRUD application with a decoupled React front-end and a Node.js/Express REST API back-end.
- Developed a secure and scalable REST API with distinct endpoints (GET, PUT) to fetch and update specific documents from a MongoDB collection using unique object IDs.
- Implemented robust backend logic using Mongoose to define data schemas and interact with the MongoDB database, ensuring data integrity and efficient queries.

LeetPeek | *Javascript, Node.js/Express, Rest API*

[Git Repository](#)

- Designed an innovative developer tool to visualize and analyze LeetCode progress by consuming the official LeetCode API.
- Streamlined achievement tracking across 3 difficulty levels (Easy, Medium, Hard), providing real-time data insights to motivate continuous improvement.

Technical Skills

Languages: JavaScript, C++, HTML/CSS, SQL

Frameworks/Libraries: React.js, Node.js, Express.js

Databases: MongoDB

Tools & Technologies: Git, GitHub, REST APIs, Postman API, VS Code, AWS Fundamentals

Leadership / Extracurricular

- Coordinator at Indian Society of Technical Education (ISTE-SC) MITS since 2nd year, working with a team to handle events.
- Postman Student Expert working on Fundamentals of API.
- Earned NPTEL certification in “User-Centric Computing for Human-Computer Interaction”, gaining hands-on knowledge of HCI principles and usability design.
- Certified by Infosys in ‘Machine Learning with C++’, demonstrating the ability to implement ML algorithms in an optimized, low-level programming environment.
- Certified by IBM in ‘Deep Learning Fundamentals’, acquiring foundational knowledge of neural networks and AI model development.
- Completed a job simulation at Deloitte Australia Technology involving development and coding, and wrote a proposal for creating a dashboard.
